Prof Shilun Qiu
State Key Lab of Inorganic Synthesis & Preparative Chemistry
Jilin University
Changchun 130012
China

Dear Prof Qiu,

It is my great pleasure to invite you to attend the Roundtable Workshop for Inorganic Chemistry, which will be held in Brisbane during January 5-9, 2017. The Workshop will bring together the leading scientists in Inorganic Chemistry from both Australia and China sides. The discipline of Inorganic Chemistry in Griffith University was ranked 5, the highest score in this field, in last year ERA ranking among Australia, which is a tremendous outcome to our university. I believe the great achievement has been benefited from the close and efficient research collaborations internationally, especially with Chinese prominent researchers in recent years. So this workshop will be aiming on developing further strategies to enhance our existing collaborations and establish new relationships, exchanging the latest research progress, discussion of future research directions and further build up friendships.

I look forward to meeting you in Griffith University.

Yours sincerely
