Dear Professor Lyu:

I would like to invite you to visit Ocean NanoTech LLC after attending the 253 ACS meeting, which will be held on April 2-6, 2017 in San Francisco, California. We can take this opportunity to discuss our research outcome and facilitating further collaboration in the field of surface patterning directed assembly of particles and applications.

Through our conversation, we realized there are significant research progresses that have been made at both sides. It is time to meet for detailed discussion. It will be great you can come in April, 2017 if convenient.

We look forward to meeting you soon

Sincerely yours,
